RE: Program #0857

Previous Accreditation Status: 8 Years

Most Recent Site Visit: 03/2018

Dear Dr. Marrero:

After review of the requested interim report, the continuing accreditation status of the baccalaureate degree radiation therapy program, which includes a distance delivery option, sponsored by Georgia Southern University - Armstrong Campus was considered at the August 23, 2022 meeting of the Joint Review Committee on Education in Radiologic Technology (JRCERT). The JRCERT is the only agency recognized by the United States Department of Education (USDE) and the Council for Higher Education Accreditation (CHEA) for the accreditation of traditional and distance delivery educational programs in radiography, radiation therapy, magnetic resonance, and medical dosimetry. Specialized accreditation awarded by the JRCERT offers institutions significant value by providing peer evaluation and by assuring the public of quality professional education in the radiologic sciences. The program was evaluated according to the **Standards for an Accredited Educational Program in Radiation Therapy (2021)**. The program documents compliance with all relevant Standards; therefore, the JRCERT awards:

MAINTENANCE OF ACCREDITATION FOR A PERIOD OF EIGHT YEARS.

The next site visit is tentatively scheduled for the First Quarter of 2026.

The program is advised to utilize two distinct measurement tools per student learning outcome on its assessment plan. Additionally, the benchmarking on the plan must include all students, not a portion or percentage of the cohort.

The program is also advised that consistent with JRCERT Policy 11.600, the JRCERT reserves the right to conduct unannounced site visits of accredited programs. The sponsoring institution would be responsible for the expenses of any on-site evaluation.
