**RE: Program #0648**

**Previous Accreditation Status: 8 Years**  
**Most Recent Site Visit: 07/2017**

Dear President Pickens:

After review of the requested interim report, the continuing accreditation status of the associate degree radiography program sponsored by St. Johns River State College was considered at the September 21, 2021 meeting of the Joint Review Committee on Education in Radiologic Technology (JRCERT). The JRCERT is the only agency recognized by the United States Department of Education (USDE) and the Council for Higher Education Accreditation (CHEA) for the accreditation of traditional and distance delivery educational programs in radiography, radiation therapy, magnetic resonance, and medical dosimetry. Specialized accreditation awarded by the JRCERT offers institutions significant value by providing peer evaluation and by assuring the public of quality professional education in the radiologic sciences. The program was evaluated according to the **Standards for an Accredited Educational Program in Radiography (2021)**. The program documents compliance with all relevant Standards; therefore, the JRCERT awards:

**MAINTENANCE OF ACCREDITATION FOR A PERIOD OF EIGHT YEARS.**

The next site visit is tentatively scheduled for the Third Quarter of 2025.

The program is advised to update its assessment plan to be consistent with JRCERT verbiage requirements. For example, the program currently calls its goals student learning outcomes and its student learning outcomes goals. The program is also advised to review the assessment resources provided at [www.jrcert.org](http://www.jrcert.org) prior to updating its assessment plan.

The program is further advised that consistent with JRCERT Policy 11.600, the JRCERT reserves the right to conduct unannounced site visits of accredited programs. The sponsoring institution would be responsible for the expenses of any on-site evaluation.
