**RE: Program #0195**

<b>Previous Accreditation Status:</b>	<b>8 Years</b>
<b>Most Recent Site Visit:</b>	<b>03/2018</b>

Dear Dr. Roth:

After review of the requested interim report, the continuing accreditation status of the baccalaureate degree, i.e., 36-month and 45-month, radiography programs sponsored by the University of Charleston was considered at the August 23, 2022 meeting of the Joint Review Committee on Education in Radiologic Technology (JRCERT). The JRCERT is the only agency recognized by the United States Department of Education (USDE) and the Council for Higher Education Accreditation (CHEA) for the accreditation of traditional and distance delivery educational programs in radiography, radiation therapy, magnetic resonance, and medical dosimetry. Specialized accreditation awarded by the JRCERT offers institutions significant value by providing peer evaluation and by assuring the public of quality professional education in the radiologic sciences. The program was evaluated according to the **Standards for an Accredited Educational Program in Radiography (2021)**. The program documents compliance with all relevant Standards; therefore, the JRCERT awards:

**MAINTENANCE OF ACCREDITATION FOR A PERIOD OF EIGHT YEARS.**

The next site visit is tentatively scheduled for the First Quarter of 2026.

The program is advised that the program completion rate published on the program's website does not match the information provided in the program's last annual report.

Additionally, the program is advised to update the timeframe for the benchmark regarding program completion rate on the program's assessment plan. The program has two different tracks, a 36-month track and a 45-month track, yet it appears the program is only assessing program completion for the 36-month track.

The program is also advised that consistent with JRCERT Policy 11.600, the JRCERT reserves the right to conduct unannounced site visits of accredited programs. The sponsoring institution would be responsible for the expenses of any on-site evaluation.

Martin Roth, Ph.D.

The Joint Review Committee on Education in Radiologic Technology Directors and staff congratulate you and the program faculty for maintaining the maximum award of accreditation from the JRCERT and wish you continuing success in your efforts to provide a quality educational program. If we can be of further assistance, do not hesitate to contact the office.

Sincerely,

Julia L. Lasley, Ph.D., R.T.(R)(T)
