RE: Program #0672

Previous Accreditation Status: 5 Years

Most Recent Site Visit: 10/2019

Dear Dr. Kadish:

After review of the requested additional progress report, the continuing accreditation status of the certificate and associate degree radiography program sponsored by Touro College was considered by the Joint Review Committee on Education in Radiologic Technology (JRCERT). The JRCERT is the only agency recognized by the United States Department of Education (USDE) and the Council for Higher Education Accreditation (CHEA) for the accreditation of traditional and distance delivery educational programs in radiography, radiation therapy, magnetic resonance, and medical dosimetry. Specialized accreditation awarded by the JRCERT offers institutions significant value by providing peer evaluation and by assuring the public of quality professional education in the radiologic sciences.

The program was evaluated according to the **Standards for an Accredited Educational Program in Radiography (2014)**. The program now documents compliance with all relevant Standards; therefore, the JRCERT took the following action:

EXTENSION OF ACCREDITATION FOR A PERIOD OF THREE YEARS.

This extension equates to an award of eight years of accreditation effective from the date of the most recent site visit.

An interim report will be required. The projected date for submission of the interim report is the Fourth Quarter of 2023. The JRCERT will provide program officials adequate notice of the due date for submission of the interim report. Based on the interim report, the JRCERT will determine if the accreditation award of eight years will be maintained or reduced and the continuing accreditation process expedited.

Based on this extension, the next site visit is tentatively scheduled for the Fourth Quarter of 2027.

Alan Kadish, M.D.

The program is advised that consistent with JRCERT Policy 11.600, the JRCERT reserves the right to conduct unannounced site visits of accredited programs. The sponsoring institution would be responsible for the expenses of any on-site evaluation.

The Joint Review Committee on Education in Radiologic Technology Directors and staff congratulate you and the program faculty for achieving the maximum award of accreditation from the JRCERT and wish you continuing success in your efforts to provide a quality educational program. If we can be of further assistance, do not hesitate to contact the office.

Sincerely,

Bette A. Schans, Ph.D., R.T.(R), FASRT
Chair
