

**NOTICE OF ACCREDITATION ACTIONS TAKEN BY THE  
JRCERT BOARD OF DIRECTORS  
NOVEMBER 17, 2020**

The Joint Review Committee on Education in Radiologic Technology (JRCERT) Standards for an Accredited Educational Program in Radiography, Radiation Therapy, Magnetic Resonance, and Medical Dosimetry are designed to promote academic excellence, patient safety, and quality healthcare. The Standards require a program to articulate its purposes; to demonstrate that it has adequate human, physical, and financial resources effectively organized for the accomplishment of its purposes; to document its effectiveness in accomplishing these purposes; and to provide assurance that it can continue to meet accreditation standards.

The JRCERT accreditation process offers a means of providing assurance to the public that a program meets specific quality standards. The process assures program quality and stimulates program improvement.

See the [Standards for an Accredited Educational Program](#) for specific objectives mentioned in this report.

**Initial Accreditation Decisions**

*Programs in this category have completed an application and self-study and had an on-site evaluation. At the time of the program's submission of the application they were not currently recognized and accredited by the JRCERT.
