REPORT OF SITE VISIT TEAM FINDINGS CHECKLIST MEDICAL DOSIMETRY

Name of Program	
City/State	
Date(s) Visited	
Clinical Education Setting(s) Visited Include city and state	
Name of Team Chair	
Name of Team Member(s)	

Confidentiality Statement was read to institution and program officials.

Quality Statement was read to institution and program officials.

Exit Statement was read to institution and program officials.

The Report of Site Visit Team Findings Checklist is based on the Joint Review committee on Education in Radiologic Technology (JRCERT) **Standards for an Accredited Educational Program in Medical Dosimetry**, adopted April 2020 and implemented January 1, 2021.

The Report of Site Visit Team Findings Checklist has been designed by the Joint Review Committee on Education in Radiologic Technology (JRCERT) to assure consistency in the evaluation of medical dosimetry programs. The checklist provides assurance that each site visit team is substantiating compliance with each standard by reviewing specific, pertinent information. Utilize this instrument in conjunction with the electronic Report of Site Visit Team Findings (RSVTF) available through the JRCERT Accreditation Management System (AMS)

The primary functions of the site visit team are to verify information, to assess program outcomes, and to report findings. Again, this is accomplished, in part, through the completion of the checklist; however, in no way does the checklist supersede the actual RSVTF. The JRCERT is responsible for determining the extent and degree of program compliance with the JRCERT **Standards**.

The completed checklist should be returned electronically to the IRCERT no later than one week post onsite evaluation.

Report of Site Visit Team Findings Checklist

Medical Dosimetry - 2021 Standards

Standard One:	
Accountability, Fair Practices	s, and Public Information

Standard One: The sponsoring institution and program promote accountability and fair

practices in relation to students, faculty, and the public. Policies and procedures of the sponsoring institution and program must support the rights of students

and faculty, be well defined, written, and readily available.

Please indicate evidence the site visit team reviewed to assess whether the program meets each of the
objectives of Standard One (Check all that apply).

•	• • • • • • • • • • • • • • • • • • • •
	Reviewed institutional and program website
	Reviewed published program policies, procedures and/or relevant information related to the following:
	\square admission and transfer of credit policies;
	\square tuition, fees, and refunds;
	\square graduation requirements;
	\square grading system;
	\square program mission statement, goals, and student learning outcomes;
	\square accreditation status;
	articulation agreement(s);
	academic calendar;
	☐ clinical obligations;
_	grievance policy and/or procedures.
	Reviewed institutional and program materials.
	Reviewed program's website for the most recent:
	\square five-year average credentialing examination pass rate data
	\square five-year average job placement rate data
	\square annual program completion rate data
	Reviewed student handbook
	Reviewed student records
	Reviewed formal grievance(s) record(s), if applicable
	Reviewed employee/faculty handbook
	Reviewed employee/faculty application form
	Reviewed institutional catalog
	Reviewed student academic and clinical records, including radiation monitoring reports
	Toured program offices
	Toured clinical setting(s)
	Interviewed institutional administration
	Interviewed faculty
П	Interviewed staff

Interviewed students
Interviewed admissions personnel, as appropriate
Interviewed clerical staff, if applicable
Interviewed clinical preceptor(s)
Interviewed clinical staff
identify any other evidence the site visit team reviewed to assess whether the program each of the objectives of Standard One.

Stand	Standard Six:		
Programmatic Effectiveness and Assessment: Using Data for Sustained Improvement			
Standard Six:		The extent of a program's effectiveness is linked to the ability to meet its mission goals, and student learning outcomes. A systematic, ongoing assessment process provides credible evidence that enables analysis and critical discussions to foster ongoing program improvement.	
		dence the site visit team reviewed to assess whether the program meets each of the ard Six (Check all that apply).	
	Reviewed pro	gram effectiveness data	
	Reviewed agg	regated/disaggregated data	
	Reviewed data	a analysis and actions taken	
	Reviewed doc	cumentation that demonstrates the sharing of results with communities of interest	
	Reviewed rep	resentative samples of measurement tools used for data collection	
	Reviewed asse	essment plan (i.e. student learning outcome data, trends)	
	Reviewed asse	essment methods	
	Reviewed doc	cumentation related to the assessment process reevaluation	
	Reviewed cur	riculum mapping documentation, if applicable	
	Interviewed fa	ıculty	
	Interviewed in	nstitutional assessment coordinator, if applicable	
		other evidence the site visit team reviewed to assess whether the program objectives of Standard Six.
